

Marketing Campaign Business Recommendation Report

Objective

Assess the performance of the major marketing channels using ROI, revenue, enrollment volume, conversion efficiency, and cost per enrollment (CPE), and identify where investment should be increased, maintained, or reconsidered.

Key Findings

- LinkedIn recorded the strongest ROI at 2444.56% and the lowest CPE at █218.61.
- Instagram remained highly efficient, with 2300.77% ROI and █229.70 CPE.
- Google Ads generated the highest revenue (█53.20 Cr) and enrollments (95,402).
- Facebook delivered strong scale with 94,199 enrollments and █51.73 Cr revenue.
- YouTube showed the weakest relative efficiency, with 2112.57% ROI and █243.38 CPE.

Marketing Funnel Overview

The campaign progressed through 129.16M impressions → 7.14M clicks → 1.42M leads → 783.62K applications → 392.31K enrollments. With an overall CTR of 5.53%, improving the impression-to-click stage through stronger creatives, sharper targeting, and clearer calls-to-action is a key opportunity.

Channel Recommendation

CHANNEL	ROI	CPE	ENROLLMENTS	ACTION
LinkedIn	2444.56%	█218.61	83,522	Increase
Instagram	2300.77%	█229.70	75,249	Increase
Facebook	2245.78%	█234.09	94,199	Maintain
Google Ads	2197.14%	█242.74	95,402	Maintain
YouTube	2112.57%	█243.38	43,942	Review / Reduce

Final Recommendation

- Increase budget for LinkedIn and Instagram because of their strong ROI and cost efficiency.
- Maintain and optimize Facebook and Google Ads to preserve their high enrollment and revenue contribution.
- Review or reduce YouTube spending because of its comparatively lower efficiency.
- Prioritize improvement at the impression-to-click stage through better creatives, targeting, and calls-to-action.
